As an evidence of the strength of the Southern and Western men they have defeated every man in the country who has avowed himself an Abolitionist.

"During the coming session of our Legislature there is a strong probability that a law will be passed calling a new convention to adopt a new constitution. The Western and Southern men appear to hang together, and if they continue to do so, California, in less than two years, will be a slave State. So you will see, if I am not more mistaken than ever I was in my life, that while our admission into the Union brings us joy and fair promises on one hand, it sends us aninternal feud on the other that will be contested with fierceness and energy both by parties."
